

Dear Land Owner,

Thank you for your interest in our MicroFIT Solar Program. We are proud and happy to help you become part of the new green energy movement. To help you better understand what happens next, here is the timeline of events when participating in the Rumble Energy MicroFIT Solar Program: (\*all documents are available on our website [www.Rumble-Energy.com](http://www.Rumble-Energy.com))

1. Complete the MicroFIT Solar Program Registration Form
2. Sign the Lease Document
3. Wait for conditional approval of the MicroFIT contract from the Ontario Power Authority (OPA) (2 - 3 months)
4. We visit your property and consult with you to identify the final specific location of the installation so that it does not interfere with you farm or property but still meets the requirement for effective solar energy generation. (2 weeks)
5. First and Last Lease Payment of \$3,000.00
6. Installation of Equipment (1 Week)
7. Final system check by your Local Distribution Company (LDC) (1 Month)
8. Connection to Grid

We hope this better helps you understand the process moving forward, but if you have any questions at all, please contact us and we will be happy to answer any questions you may have.

Sincerely,

A handwritten signature in black ink, appearing to read "Kelly J. Rumble", is written over a light blue horizontal line.
